

- Do you want to uplift your family's quality of life, improve or gain new life skills?
- Do you want to see more women raised up in the community as role models, with greater self-worth?
- Do you want to see more women enthusiastically embracing their crucial roles and become better home managers?

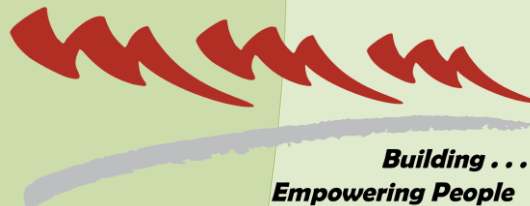

Then we challenge you to become involved in the **Women In Need Project** run by **MMM International Zambia** (Mobile Mission Maintenance).

The **WIN** project provides a training program that uplifts families through women acquiring improved life skills.

WIN PROJECT WOMEN IN NEED

EMPOWERING A WOMAN IS EMPOWERING A NATION

A Ministry of **MMM International Zambia**
[MOBILE MISSION MAINTENANCE]

ARE YOU INTERESTED?

The **WIN** program is operating in a number of communities around Ndola. If you are a resident in these communities and are interested in enrolling in the program please contact the **WIN** Coordinator for further information and application forms (refer overleaf for contact details).

A minimal monthly tuition fee applies. The program commences in January each year. The program is initially a one year course. Women who excel in the first year and show commitment to learning may have the opportunity to enrol in an advanced course to further their skills.

MMM VTC & WIN

MMM Vocational Training Centre is a Christian based training centre located in Ndola Zambia that offers courses in a range of areas. The **Women in Need** Project is a ministry of the VTC that takes training specifically to women of communities in need.

The project operates in smaller satellite training centres in communities where there is need for **women** to be **empowered, encouraged** and **uplifted**. The project specifically seeks to touch women who are untrained and unskilled and have a desire to uplift and improve their family's way of life.

TOUCHING MIND, BODY & SOUL

An holistic training program that touches the **mind, body** and **soul** provides women in need with improved skills that will build their capacity to better care for their families and community.

The areas of teaching provided in the program are:

- **Community health** – Providing awareness to critical areas of general and specific health concerns affecting the women and their families in their compounds.
- **Literacy** – Introducing reading, writing and effective communication skills.
- **Life skills** – Giving survival means at a family level.
- **Spiritual input** – Sharing the gospel message with the women through personal and group interaction.
- **Business skills** – Teaching skills to enhance business at the household level.

The main life skill taught to the women is tailoring and designing.

Empowering
Equipping
Encouraging

CAN YOU SUPPORT THE WIN PROJECT?

The **WIN** Project is run by the MMM VTC, a non-profit Christian mission seeking to empower, equip and encourage people. The full cost of running the program is not passed on to students. The minimal monthly tuition fees are heavily subsidised through the generosity of many; ensuring the program remains affordable for those in most need.

To keep the **WIN** Project running and impacting lives, we need committed people and organisations to support this vital ministry. Prayer and financial support, as well as help in the form of encouragement and staffing, are always in need. Please contact us if you are able to support the **WIN** Project.
